Shopify

Languages

Italian (Native)
English (Advanced)
Portuguese (Basic)

I am a frontend web developer and UI designer. My background in fashion design and analytical mind, allows me to bring digital products to life.
Since August 2019, I have been designing and building clean and accessible user interfaces within the Javascript ecosystem. I enjoy working in collaborative environments and solving challenges as a team.

Experience

Frontend Engineer at Farfetch May 2022 - Present
Lisbon

- Designed and implemented the internal developer docs
- Implemented customer-facing features for clients’ e-stores
- Contributed to open-source SDKs

HTML - CSS-in-Js - React - Next.js - JavaScript - Typescript - Jest - Storybook

UI Designer and Web Developer at The Clothing Loop Jan 2021 - Apr 2022
Amsterdam (remote)

- Development of React and Typescript web application for a clothing exchange initiative (view project [here](#) and repository [here](#))
- Designed and coded the UI
- Built and enabled a team of 5 volunteer web developers
